

**SUSTAINABLE BOOKS FOR
A BETTER FUTURE!**

To whom it may concern

Material Compliance Statement

With this we hereby confirm that all materials used by Livonia Print in book production comply with EC Regulation 1907/2006 concerning the Regulation, Evaluation, Authorization and Restriction of Chemicals also known as REACH.

Livonia Print in its manufacturing processes strive to reduce the use of environmentally and human health adverse materials not just in eco-labeled products but in all the production facility. Therefore, our material suppliers are providing us with the documents regarding each supplied material conformity with different EU legislation acts. These documents are updated regularly.

Based on our material suppliers' written Compliance Statements regarding Livonia Print supplied materials, we declare that raw materials used in book production - inks, varnishes, foils, adhesives, lamination films, paper and paperboard comply with REACH Regulation.

Products - materials used for book production do not contain any substances of very high concern (SVHC) at >0.1% (w/w), according to the current REACH SVHC list, and substances listed on REACH Annex XVII or Annex XIV as part of the formulations.
