

To whom it may concern

## Material Compliance Statement

With this we hereby confirm that all materials used by Livonia Print in book production comply with EC Regulation 1907/2006 concerning the Regulation, Evaluation, Authorization and Restriction of Chemicals also known as REACH.

Livonia Print in its manufacturing processes strive to reduce the use of environmentally and human health adverse materials not just in eco-labeled products but in all the production facility. Therefore, our material suppliers are providing us with the documents regarding each supplied material conformity with different EU legislation acts. These documents are updated regularly.

Based on our material suppliers' written Compliance Statements regarding Livonia Print supplied materials, we declare that raw materials used in book production - inks, varnishes, foils, adhesives, lamination films, paper and paperboard comply with REACH Regulation.

Products – materials used for book production do not contain any substances of very high concern (SVHC) at >0.1% (w/w), according to the current REACH SVHC list, and substances listed on REACH Annex XVII or Annex XIV as part of the formulations.

We hereby certify that our products are free from PVC plastic.

We hereby certify that our products do not contain lead and its compounds, cadmium and its compounds, mercury and its compounds, hexavalent chromium and its compounds, organotin compounds, or polycyclic aromatic hydrocarbons (PAHs), in concentrations exceeding 0.1 weight percent.

We hereby certify that all materials used in books intended for children, which conform to our approved standard book types, have been tested in certified laboratories and are compliant with EN-71 standards, specifically:

- EN 71-1 Mechanical and physical properties;
- EN 71-2 Flammability;
- EN 71-3 Migration of certain elements;
- EN 71-11 Organic chemical compounds;

These materials comply with the requirements of the EU Toy Directive 2009/48/EC. All components, including their chemical limit values, are harmless and meet applicable safety requirements. The phthalates DEHP, DBP, BBP, DINP, DIDP, and DNOP are not present in concentrations >0.1% (w/w). We retain all documentation required by the Directive.

Our products meet the quality and safety requirements outlined in the General Product Safety Regulation (GPSR). We ensure compliance with the applicable GPSR requirements and maintain all necessary documentation required of producers.
